

CUTTING TEMPLATE FOR CLASSIC TAP & CELLI DRIP TRAY (230mm*210mm*30mm)

Notes.
 This is not to scale.
 Check the area is suitable for tap and tray to be fitted.
 Cut out 205mm wide x 185mm deep hole for tray.
 Measure from point (A) the back edge of the cut, 85mm shown as point (B), this is the centre of the Cobra tap hole required.
 Drill a 44mm diameter hole for the tap.

Cut Out

Outside return of tray
